Rico-Werk
High-Voltage Technology

The dates:

- 22 - 23 April 2026
- Autumn, 2026 (Exact date will follow)

Costs: 978 € (plus VAT.)

Seminar

Maintenance and upgrading of electrostatic precipitators

- Proper grounding of an electrostatic precipitator system
- Commissioning of an electrostatic filter plant
- Optimization of the high voltage system of an electrostatic precipitator
- Troubleshooting for faults in the electrostatic filter system
- General service and maintenance recommendations
- Hands-on training with adjustment recommendations on the electrostatic filter model
- Including training materials and catering
