

**Our experience  
is your gain**

**Rico-Werk**  
High-Voltage Technology

## Seminar

**The dates:**

- 22 - 23 April 2026
- 13 - 14 October 2026

**Costs: 978 €** (plus VAT.)

## *Maintenance and upgrading of electrostatic precipitators*

- Proper grounding of an electrostatic precipitator system
- Commissioning of an electrostatic filter plant
- Optimization of the high voltage system of an electrostatic precipitator
- Troubleshooting for faults in the electrostatic filter system
- General service and maintenance recommendations
- Hands-on training with adjustment recommendations on the electrostatic filter model
- Including training materials and catering
